

Falls Prevention Awareness

Falls represent the most frequent and serious type of accident in people aged 65 and over, with 10,000 falls happening each day. Falls often have both a physical and mental impact, as they can result in lack of confidence, isolation, fractures and broken bones. This course is ideal for anyone working in health and social care and those who have contact with older people who are more susceptible to falls.

Benefits

- Achieve a nationally recognised Level 2 qualification
- Evidence your competency to employers
- Further your personal and professional development
